WaterAid Trail 100 sponsor form

One in eight people worldwide live without safe water and over two and a half billion lack basic sanitation. As a result, around 5,000 children die every day from water-related diseases.

WaterAid enables the world's poorest people to gain access to safe water, sanitation and hygiene education. These basic human rights underpin health, education and livelihoods and form the first, essential step in overcoming poverty.

We work with local partners, who understand local issues, and provide them with the skills and support to help communities set up and manage practical and sustainable projects that meet their real needs.
